

Level indicator for gas cylinders

Within seconds, the universal GASLEVEL® from Gaslock displays the fill levels in standard commercial 5 kg, 11 kg and 33 kg propane gas cylinders. Simply stick the GASLEVEL® vertically on the cylinder with the help of the rear magnet.

Depending on the fill level of the gas in the cylinder, the indicator light will change from red to green and vice-versa!

Product info

The universal GASLEVEL® from Gaslock is the ideal accessory for camping, barbecues, handicrafts and for the use of propane-powered outdoor heaters. In seconds it will display the fill levels in standard commercial 5 kg, 11 kg and 33 kg propane gas cylinders. Just stick the Gaslevel® on the outside of the gas cylinder in a vertical motion with the help of the rear magnet. Repeat the procedure along the cylinder. The indicator light will change from red to green and vice-versa to show the gas level in the cylinder.
